Fall Semester 2026

Dear CSC 200 – Classes,

I hope all of you had a warm and restful Summer break. I want to welcome you to your CSC 200 class starting Wednesday, August 26 first. We will be meeting in **Room 8 on the basement floor of Morrill Hall**. We will be using an online textbook published by Pearson. I am looking forward to meeting all of you on the first day of class when I will cover the course syllabus and provide details about how we will use MYLABIT to conduct the course. You will need a credit card or pay pal account to purchase this program. We will do this on our first day of class. There are several versions of the textbook. Do not purchase anything before you come to our first class. You can also purchase it from the campus bookstore, but it will cost you more money. You will also need a USB flash stick to store assignments and complete other class assignments. Please bring these items with you to our first class.

See you on the 26 st.

Professor Boppert

Emeritus Professor

Southern Connecticut State University
